

## HALAL POLICY

Nippon EGalv Steel Sdn. Bhd. is committed to produce, distribute, and supply Halal Electro Galvanized Steel Products in compliance with Halal guidelines by recognized Islamic certification bodies.

Our dedication to our customers can be shown through our commitment by:

- Ensuring all Electro Galvanized Steel Products are Halal certified.
- Ensuring all raw materials purchased and used for Electro Galvanized Steel production are Halal or equivalent.
- Ensuring the manufacturing process, storage and transportation are clean and hygiene.
- Implementing Halal Assurance System to maintain and ensure sustainability of hygiene manufacturing process according to Halal requirements.
- Establishing Internal Halal Committee comprising representatives from various departments to be responsible for all matters related to Halal compliance.

We are fully committed to meet the Halal standards and requirements through continuous strengthening Halal awareness of employees. We declared that our premises are “pork-free” areas. The policy shall be communicated and distributed to customers, suppliers, contractors and employees to continually improve its effectiveness.
